RE: Northeast Gateway® Deepwater Port Incidental Take Statement and Incidental Harassment Authorization Annual Summary Report for the 2016 Operating Period – January 2016 through December 2016

Dear Mr. Guan,

On behalf of Northeast Gateway®, L.P. (Northeast Gateway®) and accordance with Condition 12 Annex A of the Northeast Gateway® Energy Bridge™, L.P. (Northeast Gateway) Maritime Administrator of the U.S. Maritime Administration (MARAD) License to Own, Construct, and Operate a Deepwater Port issued to Northeast Gateway on May 14, 2007, and the National Oceanic and Atmospheric Administration (NOAA) Biological Opinion issued on November 21, 2014, and Incidental Take Statement (ITS) issued on December 22, 2015, Northeast Gateway® is providing for your record the Northeast Gateway® Deepwater Port (NEG Port or Port) Port Incidental Take Statement and Incidental Harassment Authorization Monitoring Report – Summary 2016, a summary of required monitoring and recording of marine mammal and sea turtle sightings and incidences of take that occur while Energy Bridge Regasification Vessels (EBRVs™) are transiting to the Port within the designated Boston Traffic Separation Scheme (TSS), maneuvering within the Port's Area to be Avoided (ATBA), and/or while actively engaging in the use of thrusters. The following is a summary of all marine mammal and sea turtle sightings and potential incidents of take for the 2016 operating year.

Over the 2016 operating period, only 2 port calls to the NEG Port were scheduled. The EBRV™ *Express*, transited through Massachusetts Bay waters and arrived at the NEG Port on November 30, 2015 to conduct commercial cargo delivery into the 2016 Winter Heating Season. In addition, the EBRV™ *Excelerate* arrived at the Broad Sound Anchorage area on January 25, 2016, with the intention to moor at the NEG Port to conduct commercial cargo delivery into the 2016 Winter Heating Season. However, EBRV™ *Excelerate* never connected to the NEG Port as she was diverted to a different destination.

On November 30, 2015 at approximately 09:06 the EBRV™ *Express* moored to NEG Port Buoy A and continued operations through February 2016. The EBRV™ *Express*' call at the NEG Port for the purpose of commercial cargo delivery began on November 30, 2015. Most of Excelerate Energy's sales were done ahead of the winter season with a number of clients in the Northeast Region. Some of the agreements were structured in such a way that Excelerate Energy's customers had rights to request gas delivery at short notice. As a result, in order to meet contractual obligations, EBRV™ *Express* had to remain moored to NEG Port Buoy A in order to be in position for response to any immediate demands from these customers. On February 27, 2016 at approximately 20:23, the EBRV™ *Express* departed NEG Port Buoy A and anchored the same day within the Broad Sound Anchorage area, at approximately 22:14. EBRV™ *Express* remained anchored within the anchorage for the remainder of February 2016, scheduled

to conduct a buoy lift maintenance operation at NEG Port Buoy A prior to departing the region through the Boston TSS in early March.

On January 25, 2016 at approximately 13:00, the EBRV™ *Excelsior* anchored within the Broad Sound Anchorage area after transiting the Boston TSS prior to the intended arrival date at the NEG Port in February 2016. The EBRV™ *Excelsior* was scheduled to start cargo delivery operations in February 2016. However, EBRV™ *Excelsior* never connected to the NEG Port as she was diverted to a different destination. EBRV™ *Excelsior* departed the Broad Sound Anchorage area on February 10, 2016, and transited out through the Boston TSS.

At approximately 06:30 on March 3, 2016, EBRV™ *Express* departed the anchorage, transiting to the NEG Port to conduct a scheduled buoy lift maintenance operation at NEG Port Buoy A prior to departing the region through the Boston TSS. After successful completion of the buoy lift maintenance operation, EBRV™ *Express* departed from NEG Port Buoy A at approximately 13:23 on March 3, 2016. EBRV™ *Express* transited through the Boston TSS, clearing AB Buoy #10 at approximately 23:22.

During the 2016 operational period, all actions required under the NOAA-approved Marine Mammal Detection, Monitoring, and Response Plan for Operations of the NEG Port and Pipeline Lateral were implemented on EBRV™ *Express* and EBRV™ *Excelsior*, as required. A total of two marine mammals were sighted during the reporting period, one while the EBRV™ *Express* was moored to NEG Port Buoy A and the other while the EBRV™ *Excelsior* was at anchor in the Broad Sound Anchorage area. No other marine mammals were sighted while vessels were transiting from the Broad Sound Anchorage area, maneuvering within Port's ATBA, conducting the scheduled buoy lift maintenance operation at NEG Port Buoy A, transiting the designated Boston TSS, and/or while actively engaging in the use of thrusters. Attachment 1 contains copies of the signed Marine Mammal Sighting Logs completed by assigned EBRV™ look-outs during these events. Attachment 1. Records of those individuals who have completed the marine mammal and sea turtle training during the 2016 operational period have been included in Attachment 2.

For all Port activities, all EBRV™ personnel responsible for navigational duties or look-outs on all vessels received NOAA-approved training on marine mammal and sea turtle sighting/reporting and vessel strike avoidance measures.

Table 1 Summarizes marine mammal and sea turtle sightings and incidences of take that took place while the above listed EBRVs were transiting within the designated TSS, transiting to/from the Broad Sound Anchorage area, maneuvering within the Port's ATBA, and/or while actively engaging in the use of thrusters. As evidenced in Table 1, no take by incidental harassment of any species was reported during the 2016 operating period.

Table 1: Marine Mammal and Sea Turtle Sightings and Take Summary - 2016							
Date	Vessel Name	Observation Period (00:00)	Species ¹	# Sighted	Closest Distance From Vessel	Vessel Activity	# Take
1/17/2016	Express	15:20	Small whale	1	≤ 2 miles	Moored to NEG Buoy A	0
2/4/2016	Excelerate	19:05	Gray seal	1	≤ 50 yd	At anchor within the Broad Sound Anchorage area	0
Total Sighted:				2	Total # Takes:		0
¹ Look-out personnel responsible for the monitoring for marine mammals have undergone NOAA-approved marine mammal identification training; however, these individuals do not have the long-term sighting expertise of NOAA-certified Marine Mammal Observers. Therefore the accuracy of the species identification is based solely on the look-out's best guess and a positive identification should not be assumed.							

Sincerely,

Timothy Feehan

NEG Marine Mammal and Sea Turtle Certification Records
2016

Vessel: Excelerate
Voyage Nbr: 051
Port: At sea
Date: 19 Jan 2016

STATEMENT of onboard Marine Mammal Training

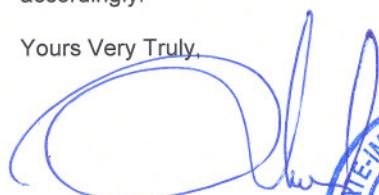

Dear Sirs,

Please be advised that following crewmembers have received the Marine Mammal Training on board :

Master Valter Ancic
2/O Andrzej Turowski
2/O Jerome Nokerman
2/O Tim van Lierde
3/O Steven Sermeus
A/O Bart Jonckers
Bosun Ramon Tudtud
AB Helvin Duat
AB Randy Sacal
AB Melchor Casipit
AB Glenn Riataza
AB Jerwin Magcale
OS Joram Labing

The course was given by C/O Benno Robaeys on 19 Jan 2016. Personal certificates were issued accordingly.

Yours Very Truly,

Capt. Valter Ancic
Master of Excelerate
